

① Flex Direction

- Row
- Column
- Row - reverse
- Column - reverse

② Justify-content \Rightarrow Works on only horizontal items i.e. x-axis

- Flex-start
- Flex-end
- Center
- Space-between
- Space-around
- Space-evenly.

③ Align-items → opposite.

looks same as justify-content but in vertical direction i.e., y-axis.

→ stretch

→ flex-start

→ flex-end

→ center

→

④ flex-wrap

→ no wrap

→ wrap

→ wrap reverse

⑤ ^{Align-}Content → same as align-items
