

10	5	23
----	---	----

10:00 Why do we need ourays →

array.length → to show length of an array.

12.00
* To add a number to an array

13.00 ex. →

numbers = [1, 2, 3, 4, 5]

numbers = [1, 2, 3, 4, 5, 6, 7, 8, 9, 10]
// if I want to add 76 to this array.

numbers.push(76);

we can push multiple things at one time using push ~~set~~.

↳ How to remove

L → pop (use this)

Syntax → `let arr = [1, 2, 3];`
`arr.pop();`

```
arr.pop();
```

arr. pop(),
No need to give any value in pop

Notes:

→ How to replace an ~~array~~ element in array
arr = [44, 69, 82, 44, 54, 92, 99]
arr[6] = "Hero"; ✓

To replace an array
 $arr = [44, 66, 88, 44, 54, 92, 99]$

`arr[6] = "Hero"; ✓`
